RE: Regulation of Combined Laboratory & X-Ray Technologists (CLXT) in Manitoba

Dear Adam,

The Canadian Society of Combined Laboratory & X-Ray Technologists (CSCLXT) is the advocacy group for Combined Laboratory & X-Ray Technologists (CLXTs) across Canada.

CLXTs are a unique profession that blend the core functions of Medical Laboratory and Radiologic Technologists. Trained to provide diagnostic imaging, laboratory and electrocardiography in health care facilities and hospitals, CLXTs are an integral part of the rural healthcare landscape in Western Canada.

Today we are writing you in support of the regulation of Combined Laboratory & X-Ray Technologists (CLXTs) in the province of Manitoba. This unique blend of skills and competencies requires regulatory alignment to ensure safe and competent services to the public. The support of a regulatory college would promote the growth of the profession and is in the best interest of the public.

Sincerely,

Keith Holowinski
President
Canadian Society of Combined Laboratory & X-Ray Technologists (CSCLXT)
