Nova Scotia College of Medical Laboratory  
Technologists (NSCMLT)  
Attn: Janice Jones

**RE: Regulation of Combined Laboratory & X-Ray Technologists (CLXT) in Nova Scotia**

Dear Janice,

The Canadian Society of Combined Laboratory & X-Ray Technologists (CSCLXT) is the advocacy group for Combined Laboratory & X-Ray Technologists (CLXTs) across Canada.

CLXTs are a unique profession that blend the core functions of Medical Laboratory and Radiologic Technologists. CLXTs are trained to provide laboratory testing, sample procurement and processing, diagnostic imaging and electrocardiography in health care facilities and hospitals. Our profession is an integral part of the healthcare landscape in Western Canada.

Today we are writing you in support of the regulation of Combined Laboratory & X-Ray Technologists (CLXTs) in the province of Nova Scotia. This unique blend of skills and competencies requires regulatory alignment to ensure safe and competent services to the public. The support of a regulatory college would promote the growth of the profession and is in the best interest of the public. CLXTs present an opportunity to efficiently address the growing demands on the Nova Scotia healthcare system.

Sincerely,

Keith Holowinski  
President  
Canadian Society of Combined Laboratory & X-Ray Technologists (CSCLXT)
