

## Job Description: Combined Lab/X-Ray Technologist

Vivo Cura Healthcare is a multidisciplinary pain management clinic focused on treating patients with muscle and joint pain. Our philosophy is that every member of the Vivo Cura team has a unique and important role to play as we try to accomplish our mission: To help our patients manage their pain so they can get back to living a more active and fulfilling life. We are looking for people who share this philosophy. Be a part of something new and exciting.

We are currently accepting applications for a casual or permanent part-time Medical Radiation Technologist (MRT) or Combined Lab and X-ray Technologist (CLXT) who is excited to work in this team-based environment and go above and beyond for our patients.

Reporting to the Clinic Manager, the MRT/CLXT is responsible for delivering exceptional patient care to all patients in a respectful, compassionate and welcoming environment. The MRT/CLXT will have the primary responsibility of operating fluoroscopy equipment for physicians performing interventional MSK pain procedures and facilitating in delivering an optimal patient experience before and afterward.

### Duties and Responsibilities

- Obtain patient history, educate patients on exam procedures, and answer questions
- Prepare rooms for procedures, including drawing medications (certified training to be provided)
- Operate radiographic equipment including mobile C-arm and processing equipment
- Assist physicians with specialized procedures
- Checks standard equipment function, calibration, and ensure equipment is disinfected as required
- Participates and assists in maintaining the quality assurance and quality control programs
- Assess current and future workloads
- Maintain and respect patient confidentiality at all times
- Commitment to outstanding patient care
- Professionalism, empathy, and can act as a team player in a collaborative work environment
- Compliance with all Vivo Cura policies, procedures, and protocols
- Various other duties as required

### Key Competencies

- Superior radiographic technological skills
- Demonstrated ability to work as a team player in a fast-paced environment
- Competency with Windows-based computer programs
- Excellent interpersonal and communication skills (auditory, written and verbal)
- Superior time management and multitasking skills with the ability to keep up with a demanding daily workload
- Technically inclined and easily adaptable to operating new equipment and associated software

Education and Experience

- New Graduates are welcome to apply - training provided
- Completion of Diploma from an accredited Medical Radiation Technologist (MRT) or Combined Lab and X-ray Technologist (CLXT) program
- Eligible for or active member in good standing with the Alberta College of Medical Diagnostic and Therapeutic Technologists (ACMDTT) or Alberta College of Combined Laboratory and X-Ray Technologists (ACCLXT)
